

DAV INSTITUTE OF ENGINEERING & TECHNOLOGY

DEPARTMENT OF TRAINING & PLACEMENT

Strategic Plan and Deployment.

Objective:

Department of Training And Placement helps the students through Counseling and Training for development of desired skill essential for Suitable Job Profile/ Higher Education , Self Employment and Inviting The Corporate Industries/Organizations for Campus Placement.

Strategy to improve Placements and Stipend based Internships:

- The department shall conduct more sessions on Aptitude, Group Discussion & Interview for Final Year students.
- The Placement Coordinators of all departments must identify and submit the department wise training & analysis requirements.
- The Placement Officer should get assistance from the Department Placement coordinators and student representatives for preparing the data base.
- Preparation of list of possible Placement drives that can be brought to the campus with the collective efforts of placement team and personal contacts.
- The department will invite maximum companies in the campus for proving stipend based internships to the students.
- The Placement coordinators must do the student mapping to identify the current position of pass out batch students and it must be recorded.
- Sign more MoUs with Industries for providing placements and stipend based internship's to the students.
- Impart necessary skills to the students to meet the expectations of the industry and to achieve brimming placements by providing adequate job opportunities.
- Strengthening the coding skills of students to crack various national hackathons of top multinationals including InfyTQ, HackWithInfy and TCS Code Vita.
- The Team meeting must be held once in every week which consists of Placement Officer, Placement Coordinators of all departments and two student representatives from each department.
