**ACADEMIC CALENDAR**

**Session: 2017-18**

<b>Odd Semester</b>		
<b>Sr. No.</b>	<b>Description</b>	<b>Period</b>
1	Session (Old students)	12 <sup>th</sup> July, 2017- 13 <sup>th</sup> November, 2017
2	Session (1 <sup>st</sup> semester )	17 <sup>th</sup> July, 2017- 13 <sup>th</sup> November, 2017
3	First Mid Semester Examination	September, 2017 (4 <sup>th</sup> – 6 <sup>th</sup> )
4	Second Mid Semester Examination	November, 2017 (1 <sup>st</sup> - 3 <sup>rd</sup> )
5	Preparatory Holidays	November, 2017 (13 <sup>th</sup> – 19 <sup>th</sup> )
6	End Semester Examination	November, 2017 (20 <sup>th</sup> )
7	*End Semester Practical Examination	December , 2017 (15 <sup>th</sup> – 20 <sup>th</sup> )
8	Winter Vacations	December , 2017 (21 <sup>st</sup> - 31 <sup>st</sup> )

<b>Even Semester</b>		
<b>Sr. No.</b>	<b>Description</b>	<b>Period</b>
1	Session	02 <sup>nd</sup> January, 2018 – 21 <sup>st</sup> April, 2018
2	First Mid Semester Examination	February, 2018 (26 <sup>th</sup> - 28 <sup>th</sup> )
3	Second Mid Semester Examination	April, 2018 (9 <sup>th</sup> – 11 <sup>th</sup> )
4	Preparatory Holidays	April, 2018 (22 <sup>nd</sup> -24 <sup>th</sup> )
5	End Semester Examination	April, 2018 (25 <sup>th</sup> ) - May 2018 (14 <sup>th</sup> )
6	*End Semester Practical Examination	May, 2018 (14 <sup>th</sup> –19 <sup>th</sup> )
7	Institutional Training/ Workshop Training	May 2018 (21 <sup>st</sup> ) - July 2018 (6 <sup>th</sup> )
8	Vacations for Faculty	May 2018 (21 <sup>st</sup> ) - July 2018 (6 <sup>th</sup> )

- Note**
1. \*Practical examinations for all the branches will start immediate after the end of regular examinations.
  2. Number of days falling short of 90 should be compensated by making Saturdays Working by the institutions.

## Syllabus

### Course contents as per IKG PTU curriculum:

Detailed Contents	Contact hours
<p><b><u>Unit-I</u></b></p> <p>Statistics and Probability: Introduction to Statistics – Origin of Statistics, Features of Statistics, Scope of Statistics, Functions of Statics, Uses and importance of Statistics, Limitation of Statistics, Distrust of Statistics</p> <p>Collection of Data: Introduction to Collection of Data, Primary and Secondary Data, Methods of Collecting Primary Data, Methods of Secondary Data, Statistical Errors, Rounding off Data (Approximation). [CO1]</p>	12hours
<p><b><u>Unit-II</u></b></p> <p>Classification of Data Frequency Distribution: Introduction Classification of Data, Objectives of Classification, Methods of Classification, Ways to Classify Numerical Data or Raw Data. Tabular, Diagrammatic and Graphic Presentation of Data: Introduction to Tabular Presentation of Data, Objectives of Tabulation, Components of a Statistical Table, General Rules for the Construction of a Table, Types of Tables, Introduction to Diagrammatic Presentation of Data, Advantage and Disadvantage of Diagrammatic Presentation, Types of Diagrams, Introduction to Graphic Presentation of Data, Advantage and Disadvantage of Graphic Presentation, Types of Graphs. [CO2]</p>	12hours
<p><b><u>Unit -III</u></b></p> <p>Measures of Central tendency: Introduction to Central Tendency, Purpose and Functions of Average, Characteristics of a Good Average, Types of Averages, Meaning of Arithmetic Mean, Calculation of Arithmetic Mean, Merit and Demerits of Arithmetic Mean, Meaning of Median, Calculation of Median, Merit and Demerits of Median, Meaning of Mode, Calculation of Mode, Merit and Demerits of Mode, Harmonic Mean- Properties, Merit and Demerits. [CO3]</p>	12 hours
<p><b><u>Unit-IV</u></b></p> <p>Measures of Dispersion: Meaning of Dispersion, Objectives of Dispersion, Properties of a good Measure of Dispersion, Methods of Measuring Dispersion, Range Introduction, Calculation of Range , Merit and Demerits of Range, Mean Deviation, Calculation of Mean Deviation , Merit and Demerits of Mean Deviation, Standard Deviation Meaning, Calculation of Standard Deviation , Merit and Demerits of Standard Deviation, Coefficient of Variation, Calculation of Coefficient Variance, Merit and Demerits of Coefficient of Variation. [CO4] [CO5]</p>	12 hours

**Prerequisite:** Students must have the basic knowledge of mathematic terms.

**Textbooks:**

1. Statistics and Data Analysis, A.Abebe, J. Daniels, J.W.Mckean, December 2000.
2. Statistics, Tmt. S. EzhilarasiThiru, 2005, Government of Tamilnadu.
3. Introduction to Statistics, David M. Lane.
4. Weiss, N.A., Introductory Statistics. Addison Wesley, 1999.
5. Clarke, G.M. & Cooke, D., A Basic course in Statistics. Arnold, 1998.

**Reference Books:**

1. Banfield J.(1999), R-web: Web-based Statistical Analysis, Journal of Statistical Software.
2. Bhattacharya,G.K. and Johnson, R.A.(1997), Statistical Concepts and Methods, New York, John Wiley & Sons.

**E-Books/ Online learning material:**

1. [http://onlinestatbook.com/Online\\_Statistics\\_Education.pdf](http://onlinestatbook.com/Online_Statistics_Education.pdf)
2. <https://textbookcorp.tn.gov.in/Books/12/Std12-Stat-EM.pdf>
3. <https://3lihandam69.files.wordpress.com/2015/10/introductorystatistics.pdf>

**Course Objectives**

1. Understand the basic concepts of mathematics and its usage
2. Introduce students to the basic word processing, Spreadsheet and Presentation related softwares and skills.
3. Learn basic internet applications including email, online secure transactions and advanced computing related concepts.

**Course Outcomes:** After studying this course, students will be able to:

<b>CO#</b>	<b>Course Outcome</b>
<b>CO1</b>	Highlight the need of studying & analyzing Statistics.
<b>CO2</b>	Identify visualization tools for representing data.
<b>CO3</b>	Describe various statistical formulas.
<b>CO4</b>	Compute various statistical measures.
<b>CO5</b>	Compare result of different statistical measures.

Lecture Delivery Plan

**Subject:**Fundamental of Statistics

**Faculty:** Mr. Ashwani Kumar

**Subject Code:**UGCA1907

**Branch/Semester:** BCA/2<sup>nd</sup>

Sr N.	Name of Topics to be Covered/Planned	L/T	Date (Planned)	Date (Actual)	Teaching Aid Used	COs Mapped	Self Remarks
1.	Introduction and Meaning of Statistics, Origin & various definitions of Statistics	L1	21Feb, 2022	21Feb, 2022	Chalk & Board	CO1	
2.	Various forms of Statistics: Descriptive and Inferential Statistics (& singular, plural) and examples	L2	22Feb, 2022	23Feb, 2022	Chalk & Board	CO1	
3.	Various features of Statistics	L3	23Feb,2022	24Feb, 2022	Chalk & Board	CO1	
4.	Importance and Functions of Statistics	L4	25Feb, 2022	25Feb, 2022	Chalk & Board	CO1	
5.	Scopes of Statistics, Limitations of Statistics	L5	28Feb, 2022	28Feb, 2022	Chalk & Board	CO1	
6.	Distrust on Statistics causes and treatment	L6	02 Mar, 2022	02 Mar, 2022	Chalk & Board	CO1	
7.	Statistics is an art or Science?	L7	03 Mar, 2022	03 Mar, 2022	Chalk & Board	CO1	
8.	Necessarily of Empirical and Quantitative analysis of data and types of data	L8	04 Mar, 2022	04 Mar, 2022	Chalk & Board	CO1	
9.	Sources of Primary and Secondary data and merits and demerits	L9	07 Mar, 2022	14 Mar, 2022	Chalk & Board	CO1	
10.	Methods of collection of Primary data with merits and demerits	L10	09 Mar, 2022	17 Mar, 2022	Chalk & Board	CO1	
11.	Methods of collection of Secondary data with merits and demerits	L11	10 Mar, 2022	10 Mar, 2022	Chalk & Board	CO1	Timetable revised
12.	Questionnaire versus schedule and Drafting Questionnaire	L12	11 Mar, 2022	11 Mar, 2022	Chalk & Board	CO1	

**DAV Institute of Engineering & Technology, Jalandhar**  
**Department of Applied Sciences**

CAY: 2021-2022

13.	Classification of data and its features: Introduction & objective	L13	14 Mar, 2022	14 Mar, 2022	Chalk & Board	CO2	
14.	Modes of classification and statistical series	L14	16 Mar, 2022	16 Mar, 2022	Chalk & Board	CO2	
15.	Frequency distributions-1	L15	17 Mar, 2022	17 Mar, 2022	Chalk & Board	CO2	
16.	Frequency distributions-2	L16	21 Mar, 2022	21 Mar, 2022	Chalk & Board	CO2	
17.	Presentation of data: Tabulation, its objectives and limitations, Classification versus Tabulation	L17	23 Mar, 2022	23 Mar, 2022	Chalk & Board	CO2	
18.	Features of good table, components, rules of constructions of various types of tables	L18	24 Mar, 2022	24 Mar, 2022	Chalk & Board	CO2	
19.	Diagrammatic presentation of the data: Utility, qualities and limitations, tabulation versus presentation, Bar charts, various types and merits/demerits	L19	25 Mar, 2022	25 Mar, 2022	Chalk & Board	CO2	
20.	Diagrammatic presentation: Square, circular diagrams and Pie charts, pie charts evaluation, Pictograms and Cartograms	L20	28 Mar, 2022	28 Mar, 2022	Chalk & Board	CO2	
21.	Graphical presentation: Histogram, frequency polygon and frequency curve	L21	30 Mar, 2022	30 Mar, 2022	Chalk & Board	CO2	
22.	Graphical presentation: Cumulative frequency distributions and ogives	L22	31 Mar, 2022	31 Mar, 2022	Chalk & Board	CO2	
23.	Diagrammatic vs Graphical presentations	L23	04Apr, 2022	04Apr, 2022	Chalk & Board	CO2	
24.	Advantages and Disadvantages of Graphs	L24	06Apr, 2022	06Apr, 2022	Chalk & Board	CO2	
25.	Mathematical averages definitions, meaning of central tendency of data	L25	07Apr, 2022	07Apr, 2022	Chalk & Board	CO3	
26.	Simple arithmetic mean	L26	08Apr,	08Apr,	Chalk &	CO3	

**DAV Institute of Engineering & Technology, Jalandhar**  
**Department of Applied Sciences**

CAY: 2021-2022

	(ungrouped data, grouped data)		<b>2022</b>	<b>2022</b>	Board		
<b>27.</b>	Merits and demerits, properties of mean	<b>L27</b>	<b>11Apr, 2022</b>	<b>11Apr, 2022</b>	Chalk & Board	CO3	
<b>28.</b>	deviation and step deviation methods	<b>L28</b>	<b>13Apr, 2022</b>	<b>13Apr, 2022</b>	Chalk & Board	CO3	
<b>29.</b>	Combined, weighted arithmetic mean	<b>L29</b>	<b>18Apr, 2022</b>	<b>18Apr, 2022</b>	Chalk & Board	CO3	
<b>30.</b>	correcting arithmetic mean and finding missing frequencies	<b>L30</b>	<b>20Apr, 2022</b>	<b>20Apr, 2022</b>	Chalk & Board	CO3	
<b>31.</b>	Positional Averages meaning and definition, Median: grouped and ungrouped data	<b>L31</b>	<b>21Apr, 2022</b>	<b>21Apr, 2022</b>	Chalk & Board	CO3	
<b>32.</b>	Merits, demerits and properties of median	<b>L32</b>	<b>22Apr, 2022</b>	<b>22Apr, 2022</b>	Chalk & Board	CO3	
<b>33.</b>	Mode and its findings, merits demerits and properties of mode	<b>L33</b>	<b>25Apr, 2022</b>	<b>25Apr, 2022</b>	Chalk & Board	CO3	
<b>34.</b>	Method of groupings to find Mode in grouped data (bimodal, trimodal)	<b>L34</b>	<b>27Apr, 2022</b>	<b>27Apr, 2022</b>	Chalk & Board	CO3	
<b>35.</b>	Graphic presentation of mean, median and mode, empirical relation between mean, median, mode and symmetry	<b>L35</b>	<b>28Apr, 2022</b>	<b>28Apr, 2022</b>	Chalk & Board	CO3	
<b>36.</b>	Harmonic Mean-Properties, merits and demerits and miscellaneous problems on central tendency	<b>L36</b>	<b>29Apr, 2022</b>	<b>29Apr, 2022</b>	Chalk & Board	CO3	
<b>37.</b>	Meaning of measures of dispersion, Objective and properties of good measure of dispersion	<b>L37</b>	<b>02May, 2022</b>	<b>02May, 2022</b>	Chalk & Board	CO4, CO5	
<b>38.</b>	Absolute and relative measures, Range and coefficient of range: calculations	<b>L38</b>	<b>04 May, 2022</b>	<b>04 May, 2022</b>	Chalk & Board	CO4, CO5	
<b>39.</b>	Merit and demerits of range and examples	<b>L39</b>	<b>05 May, 2022</b>	<b>05 May, 2022</b>	Chalk & Board	CO4, CO5	
<b>40.</b>	Mean deviation about mean, median and mode: calculations	<b>L40</b>	<b>06 May, 2022</b>	<b>06 May, 2022</b>	Chalk & Board	CO4, CO5	

**DAV Institute of Engineering & Technology, Jalandhar**  
**Department of Applied Sciences**

CAY: 2021-2022

41.	Properties, merits and demerits of mean deviation about averages	L41	09 May, 2022	09 May, 2022	Chalk & Board	CO4, CO5	
42.	Standard deviation and variance and their calculations	L42	11 May, 2022	11 May, 2022	Chalk & Board	CO4, CO5	
43.	Properties of Standard Deviation and Variance	L43	12 May, 2022	12 May, 2022	Chalk & Board	CO4, CO5	
44.	Merits and demerits of Standard Deviation and Variance	L44	13 May, 2022	13 May, 2022	Chalk & Board	CO4, CO5	
45.	Coefficient of Variation: calculations and examples	L45	16 May, 2022	16 May, 2022	Chalk & Board	CO4, CO5	
46.	Properties, merits and demerits of Coefficient of Variation	L46	18 May, 2022	18 May, 2022	Chalk & Board	CO4, CO5	
47.	Various miscellaneous problems on measures of dispersion	L47	19 May, 2022	19 May, 2022	Chalk & Board	CO4, CO5	
48.	Various miscellaneous problems on measures of dispersion	L48	20 May, 2022	20 May, 2022	Chalk & Board	CO4, CO5	
49.	Extra lectures for revision		onwards	onwards			

---

**Syllabus Coverage Report:**

**MST-I**

**Give Details of Chapter's / syllabus covered before MST-1**

**Unit-I**

Statistics and Probability: Introduction to Statistics – Origin of Statistics, Features of Statistics, Scope of Statistics, Functions of Statics, Uses and importance of Statistics, Limitation of Statistics, Distrust of Statistics

Collection of Data: Introduction to Collection of Data, Primary and Secondary Data, Methods of Collecting Primary Data, Methods of Secondary Data, Statistical Errors, Rounding off Data (Approximation). [CO1]

**Unit-II**

Classification of Data Frequency Distribution: Introduction Classification of Data, Objectives of Classification, Methods of Classification, Ways to Classify Numerical Data or Raw Data. Tabular, Diagrammatic and Graphic Presentation of Data: Introduction to Tabular Presentation of Data, Objectives of Tabulation, Components of a Statistical Table, General Rules for the Construction of a Table, Types of Tables, Introduction to Diagrammatic Presentation of Data, Advantage and Disadvantage of Diagrammatic Presentation, Types of Diagrams, Introduction to Graphic Presentation of Data, Advantage and Disadvantage of Graphic Presentation, Types of Graphs. [CO2]

**MST-II**

**Give Details of Chapter's / syllabus covered before MST-2**

**Unit -III**

Measures of Central tendency: Introduction to Central Tendency, Purpose and Functions of Average, Characteristics of a Good Average, Types of Averages, Meaning of Arithmetic Mean, Calculation of Arithmetic Mean, Merit and Demerits of Arithmetic Mean, Meaning of Median, Calculation of Median, Merit and Demerits of Median, Meaning of Mode, Calculation of Mode, Merit and Demerits of Mode, Harmonic Mean- Properties, Merit and Demerits. [CO3]

**Unit-IV**

Measures of Dispersion: Meaning of Dispersion, Objectives of Dispersion, Properties of a good Measure of Dispersion, Methods of Measuring Dispersion, Range Introduction, Calculation of Range , Merit and Demerits of Range, Mean Deviation, Calculation of Mean Deviation , Merit and Demerits of Mean Deviation, Standard Deviation Meaning, Calculation of Standard Deviation , Merit and Demerits of Standard Deviation, Coefficient of Variation, Calculation of Coefficient Variance, Merit and Demerits of Coefficient of Variation. [CO4] [CO5]

**No. of proposed lectures= 48**

**No. of proposed Assignments=4**

**No. of proposed MST=2**

**No. of Quiz = 2**

**Assignment no. 1**

**Class: BCA (Semester: 1<sup>st</sup>)**

**Subject: Mathematics (UGCA1907)**

**Level of difficulty: Average**

**Max Marks: 12**

**Date of Issue: 1 Apr, 2022**

**Date of Submission: 10 Apr, 2022**

Q No	Question	CO's, RBT Level	Marks																																																																																																				
<b>1</b>	Define Statistics. Elaborate its features, functions, scopes and limitations. What are the different modes of classification of data? Define tabulation Explain different levels of measurements of data with example.	CO1, L2	1																																																																																																				
<b>2</b>	Frame a questionnaire for preference of various jobs by the youth these days in this pandemic.	CO1, L2	1																																																																																																				
<b>3</b>	A researcher wishes to do study on daily earnings of sample of 50 employees of a large company, the data is as follows: <table border="1" style="margin: 10px auto; border-collapse: collapse; text-align: center;"> <tbody> <tr><td>40</td><td>51</td><td>52</td><td>88</td><td>82</td><td>78</td><td>81</td><td>58</td><td>55</td><td>85</td></tr> <tr><td>5</td><td>0</td><td>0</td><td>0</td><td>0</td><td>0</td><td>0</td><td>0</td><td>5</td><td>0</td></tr> <tr><td>79</td><td>50</td><td>61</td><td>62</td><td>65</td><td>68</td><td>35</td><td>53</td><td>49</td><td>58</td></tr> <tr><td>0</td><td>5</td><td>0</td><td>0</td><td>0</td><td>0</td><td>0</td><td>0</td><td>5</td><td>5</td></tr> <tr><td>48</td><td>69</td><td>61</td><td>71</td><td>81</td><td>52</td><td>53</td><td>68</td><td>70</td><td>69</td></tr> <tr><td>0</td><td>5</td><td>0</td><td>0</td><td>0</td><td>5</td><td>0</td><td>0</td><td>5</td><td>0</td></tr> <tr><td>37</td><td>76</td><td>59</td><td>70</td><td>30</td><td>59</td><td>39</td><td>46</td><td>59</td><td>67</td></tr> <tr><td>0</td><td>0</td><td>0</td><td>5</td><td>0</td><td>0</td><td>0</td><td>0</td><td>0</td><td>0</td></tr> <tr><td>45</td><td>54</td><td>69</td><td>48</td><td>42</td><td>41</td><td>59</td><td>75</td><td>62</td><td>56</td></tr> <tr><td>0</td><td>0</td><td>0</td><td>0</td><td>0</td><td>0</td><td>5</td><td>0</td><td>0</td><td>0</td></tr> </tbody> </table> <p>a. What type of data is the above data?                      b. Classify the data into discrete frequency distribution and represent it into polygon curve                      c. Classify the data in continuous frequency distribution and represent it into histogram</p>	40	51	52	88	82	78	81	58	55	85	5	0	0	0	0	0	0	0	5	0	79	50	61	62	65	68	35	53	49	58	0	5	0	0	0	0	0	0	5	5	48	69	61	71	81	52	53	68	70	69	0	5	0	0	0	5	0	0	5	0	37	76	59	70	30	59	39	46	59	67	0	0	0	5	0	0	0	0	0	0	45	54	69	48	42	41	59	75	62	56	0	0	0	0	0	0	5	0	0	0	CO1, L6	1

**Subject: Material Engg. (BTME-404-18)**  
**Quiz-2 (02/05/2022)**  
**Topic: Phase Diagrams**  
**Max. Marks: 10**

1. How many types of systems are applicable for phase diagrams? (CO3/RBTL2)

(1 Point)

- One
- Two
- Three
- Four

2. Separation of single-phase solid regions from two-phase solid regions is done by \_\_\_\_\_. (CO3/RBTL3)

(1 Point)

- Solidus line
- Solidus line
- Solvus line
- Eutectic point

3. During solidification of a pure molten metal, the grains in the casting near the mould wall are. (CO3/RBTL2)

(1 Point)

- coarse and randomly oriented
- fine and randomly oriented
- fine and ordered
- coarse and ordered

4. The reaction in which liquid phase transforms into two different solid phase is called. (CO3/RBTL2)

(1 Point)

- Eutectoid reaction
- Peritectic reaction
- Eutectic reaction
- Peritectoid reaction

5. A specific body of material or a series of alloys with the same compositions is/are known as \_\_\_\_\_. (CO3/RBTL1)

(1 Point)

- Component
- System

- Alloy
- Solute

6. Which of the following cannot be obtained using a phase diagram?  
(CO3/RBTL2)

(1 Point)

- Melting temperatures of various phases
- Temperature range for solidification
- Equilibrium solid solubility
- Purity of materials

7. The reaction in which a liquid phase transforms into two different solid phases is called \_\_\_\_\_ (CO3/RBTL3)

(1 Point)

- Eutectoid reaction
- Peritectic reaction
- Eutectic reaction
- Peritectoid. reaction

8. Which of the following is not a name for phases present in a system of material in various conditions? (CO3/RBTL2)

(1 Point)

- Phase diagram
- Equilibrium diagram
- Interstitial diagram
- Constitutional diagram

9. How is Gibb's rule defined? (CO3/RBTL3)

(1 Point)

- $C+P+1$
- $C+P+2$
- $C-P+2$
- $C-P$

10. The point at which two liquidus lines meet is known as \_\_\_\_\_ (CO3/RBTL3)

(1 Point)

- Eutectic point
- isothermal point
- Solvus point
- Peritectic point

<b>Name of Activity</b>	<b>Mind Map: Problem Solving (Hypothesis Testing)</b>	
<b>Class</b>	<b>B. Tech. (CSE) Semester: 2</b>	
<b>Academic Year</b>	<b>2021-22</b>	
<b>Course name</b>	<b>Probability &amp; Statistics: BTAM204-18</b>	
<b>Semester</b>	<b>2<sup>nd</sup></b>	<b>Date: 10 May, 2022</b>
<b>Faculty Coordinator</b>	<b>Ashwani Kumar (Department of Applied Sciences)</b>	

**Context:** Planned activity is the group activity. Basically student involvement, thinking on problem statement, group discussion among the team and identification of solution is done.

Five groups of 5-5 students formed as per the choice of students and comfort zone to get better outcome. Each group has assigned a group leader (on the bases of performance in the previous assessments) and given a **problem to solve**. The problem statements will be different for each group so that the group members concentrate on their own problem. Leader first explain the topic to the group to which the problem is concerned and the method to solve the problem (if required) so that every member become a master to solve the problem. Then leader of the group will discuss the given problem with the group members and decide and distribute the tasks among the group members for timely submission of task. This will help students to **work in a team** and the leader member to enhance his/her **leadership qualities**. During their task of problem solving students are kept free to ask any doubt or query with the teacher. After all satisfactory discussion, students sit together (group wise) and prepare a solution for the given problem statement. Once the flowchart of the methodology and problem solution is ready, students have to draw the complete details on a chart paper and present in front of the complete class. It is kept mandatory for every member of the group to present a part of the problem solution which will **enhance the communication skill** of every individual student and will **remove the stage fear** of the students. The instructor and other students are expected to ask the cross questions and get involve in each other's work.

### **Activity Description**

- Step1- A lecture on the topic was earlier delivered
- Step 2- Selection of team members as per choice and comfort level and assigning a leader.
- Step 2- Assigning problem to solve to each group
- Step 4- Discussion on topic related to problem within group by the leader
- Step 4- Discussion on solution to the problem and explain methodology of it within group.
- Step 3- Distribution of tasks by leader in coordination of team members
- Step 5- Finalization of most suitable solution
- Step 6- Drawing the complete flow chart, solution and key points on chart
- Step 7- Presentation of the solution to problem given and chart in front of the class
- Step 8- Discussion and answering the questions by friends and teacher.

## Practice (Problem Statement, Rubrics)

1. This activity will be in class activity. **This will be graded activity.** Students groups will be formed with 5 students per group. Problem statement is given well in advance to students so that they can get prepared well and come with the required solution. 15-20 minutes will be given for understanding topic and discussion among the members after giving problem before presentation.
2. After 15 mins instructor will announce the time and take review on student's performance. Students will be instructed to present the work in front of complete class.
3. Faculty will coordinate and will help students in clarifying the understanding of the problem statement and the topic anytime.
4. Faculty then will invite each group to present their poster and explain the flowchart and problem solving methodology. Likewise every group will be evaluated.
5. Faculty will give feedback (reflections on performances) on every group's performance.
6. All groups will be asked to submit a chart on the activity including flowchart, problem solution and the key points.
7. Forum will kept open for suggestions and discussions.
8. Questions sample:

Sr. No.	Problem Statements	COs	RBT Level
1	In a hospital 475 female and 525 male babies were born in a week. Do these figures confirm the hypothesis that male babies born more as compared to female babies?	CO3	L6
2	In a city a sample of 1000 people were taken and out of them 540 are vegetarian and the rest are non-vegetarian. Can we say that the both habits of eating (vegetarian or non-vegetarian) are equally popular in the city at (i) 1% level of significance (ii) 5% level of significance?	CO3	L6
3	325 men out of 600 men chosen from a big city were found to be smokers. Does this information support the conclusion that the majority of men in the city are smokers?	CO3	L6
4	Random sample of 400 men and 600 women were asked whether they would like to have a school near their residence. 200 men and 325 women were in favour of proposal. Test the hypothesis that the proportion of men and women in favour of the proposal are same at 5% level of significance.	CO3	L6
5	In a town A, there were 956 births of which 52.5% were males while in towns A and B combined, this proportion in total of 1406 births was 0.496. Is there any significant difference in the proportion of male births in the two towns?	CO3	L6
6	A sample of 1000 students from a university was taken and their average weight was found to be 112 pounds with a S.D. of 20 pounds. Could the mean weight of students in the population be 120 pounds?	CO3	L6
7	A random sample of 200 measurements from a large population gave a mean value of 50 and a S.D. of 9. Determine 95% confidence interval for the mean of population.	CO3	L6

<b>Total</b>					<b>15</b>

### **Evidence of Success / Outcome / Post reflection:**

This activity basically help the students in developing the various essential qualities among them like, team work, group discussion, involvement, thinking and learning critical topics, presentation skills, communication skills and leadership qualities and removal of stage fear of the students. Students are motivated to work well and produce good results. Also it is always desired that all the team members are involved and participated equally. Definitely student's involvement was always good and satisfactory performance is observed during the presentations.

## PHOTOS OF THE ACTIVITY:

Students having a discussion in group

**Mind map-chart preparation by students**

**Groups presented on stage one by one**

**MIND MAP - PROBLEM SOLVING**

**FLOWCHART**

Problem Solving

Define  $H_0$

Define  $H_1$

Significance Level

Formulate the Statistics

Comparing

Accepting/Rejecting

Step-1: Define  $H_0$

Step-2: Choose a SIGNIFICANCE LEVEL.

Step-3: Formulate the Statistics.

Step-4: Compare the calculated value with the table value.

Step-5: Reject/Accept  $H_0$ .

This is a two tailed testing in which we take  $|z|$  and this is a SINGLE MEAN TESTING in which we formulate the statistics by the formula  $\frac{\bar{x}-\mu}{\frac{\sigma}{\sqrt{n}}}$

**MIND MAP : PROBLEM SOLVING**

Q. IN A CITY A SAMPLE OF 1000 PEOPLE WERE TAKEN AND OUT OF THEM 500 ARE VEGETARIAN AND THE REST ARE NON-VEGETARIAN. CAN WE SAY THAT THE BOTH HABITS OF EATING (VEG OR NON-VEG) ARE EQUALLY POPULAR IN THE CITY AT 1) 1% LEVEL OF SIGNIFICANCE 2) 5% LEVEL OF SIGNIFICANCE

**KEY POINTS**

Null hypothesis: Null hypothesis is a statement generated by assuming that there is no difference between the samples and population.

Significance level: It is denoted by  $\alpha$  or  $\alpha\%$ . It is also known as risk factor. It is the probability of value of the statistic falling in the critical region known as level of significance.

Confidence level = significance level + 100

Conclusion: We can use  $Z$  test when  $n > 30$ .  $Z$  test is significant we cannot say every habit of veg is equally popular to eating habits of non-veg. We can say only habits of veg is equally popular to eating habits of non-veg.

**FLOWCHART**

$H_0: p = P$

Significance Level 0.05

$P = \frac{500}{1000} = 0.5$ ,  $P_0 = 0.5$

$Q = 1 - P = 0.5$ ,  $Q_0 = 0.5$

$Z = \frac{p - P}{\sqrt{\frac{PQ}{n}}} = \frac{0.5 - 0.5}{\sqrt{\frac{0.5 \times 0.5}{1000}}} = 0$

$Z_{0.05} = 1.96$

$Z_{0.01} = 2.58$

$Z_{0.05} < Z_{0.01}$

**Mind Map : Problem Solving**

**Procedure:-**

Step 1: Define Null Hypothesis ( $H_0$ )

Step 2: Choose the Significance level

Step 3: Formulate the statistics

Step 4: Highlight the theoretical table Value

Step 5: Comparison of evaluated statistic & table value for acceptance and rejection of  $H_0$

Problem:- In a hospital 475 female and 525 male babies were born in a week so these figures confirm the hypothesis that male babies born more as compared to female babies.

$P_1$  - male babies born = 525

$P_2$  - female babies born = 475

$H_0: P_1 = P_2$

$n_1 = 1000$

$P$  - proportion of success =  $\frac{525}{1000} = 0.525$

Significance level =  $Z = \frac{p - P}{\sqrt{\frac{PQ}{n}}} = \frac{0.525 - 0.5}{\sqrt{\frac{0.5 \times 0.5}{1000}}} = 1.64$

As  $|Z| < Z_{0.05}$ , we do not reject  $H_0$ .  
we can say male and female have equal birth rates.

**Key Points**

Hypothesis:- A statement whose validity or correctness is not sure is called hypothesis and these hypothesis are being tested by probability theory called hypothesis testing.

So this is right tailed testing.

**MIND MAP PROBLEM SOLVING:**

Q. In 20 random samples of 700 men and 600 women were asked whether they would like to have a school near their residence. 300 men and 325 women were in the favour of the proposal. Test the hypothesis that the proportion of men and women in favour of the proposal are same at 1% level of significance.

**STEPS FOR SOLUTION**

1. DEFINE  $H_0$ :  $H_0: p = P$

2. CHOOSE THE SIGNIFICANCE LEVEL:  $\alpha = 1\%$  (GIVEN)

3. FORMULATE THE STATISTICS:  $n_1 = 700$ ,  $n_2 = 600$

4. HIGHLIGHT THE THEORETICAL TABLE VALUE:  $P = \frac{300}{700} = 0.4286$ ,  $P_0 = \frac{325}{600} = 0.5417$

5. COMPARISON OF EVALUATED STATISTIC AND TABLE VALUES FOR SIGNIFICANCE ACCEPTANCE AND REJECTION OF  $H_0$ :  $Q = 1 - P = 0.5714$

$Z = \frac{(P_1 - P_2) \sqrt{\frac{PQ}{n_1} + \frac{PQ}{n_2}}}{\sqrt{\frac{PQ}{n_1} + \frac{PQ}{n_2}}} = \frac{0.4286 - 0.5417}{\sqrt{0.4286 \times 0.5714 \left( \frac{1}{700} + \frac{1}{600} \right)}} = 3.2719$

TABLE VALUE AT 1% SIGNIFICANCE LEVEL = 2.58

$|Z| < Z_{0.05}$  ... we accept the  $H_0$ . I.e. there is no difference in the opinion of men & women as far as proposal of school is concerned.

**KEY POINTS**

- Null hypothesis
- Alternative hypothesis
- Significance level
- Confidence level
- STANDARD NORMAL DISTRIBUTION

**GROUP MEMBERS:**

- AVINET BAUR (M), KARAN KUMAR (M)
- DAVA CHANDAN (M), DARSH CHARMA (M)
- ASTHA BANERJEE (M)
- DIKSHIT SHARMA (M)

**MIND MAP : PROBLEM SOLVING**

**TESTING HYPOTHESIS (STEPS)**

1) DEFINE  $H_0$

2) CHOOSE THE SIGNIFICANCE LEVEL (USUALLY WE TAKE 5%)

3) FORMULATE THE STATISTICS

4) HIGHLIGHT THE THEORETICAL TABLE VALUE

5) COMPARISON OF EVALUATED STATISTICS AND TABLE VALUE FOR ACCEPTANCE OR REJECTION OF  $H_0$ .

Table A: Male - 502, Female - 497, Total - 999

Table B: Male - 195, Female - 255, Total - 450

1)  $H_0: P_1 = P_2$   
 $H_1: P_1 \neq P_2$  (Two Tailed Testing)

2) The Significance level is 5%.

3)  $P_1 = \frac{502}{996}$ ,  $P_2 = \frac{195}{450}$

$P = \frac{502 + 195}{1406} = 0.5$ ,  $Q = 1 - P = 0.5$

$Z = \frac{P_1 - P_2}{\sqrt{PQ \left( \frac{1}{n_1} + \frac{1}{n_2} \right)}} = \frac{0.502 - 0.433}{\sqrt{0.5 \times 0.5 \left( \frac{1}{996} + \frac{1}{450} \right)}} = 3.21$

4)  $Z_{0.05} = 1.96$

5)  $|Z| > Z_{0.05}$  So we reject  $H_0$ . There is significant difference in the proportion of male births in the two towns.

**Mind maps-charts prepared by students**

## **Critics:**

### **Following are the observation related to Mind map activity**

Feedback has been taken from students orally as well as through Google form:

<https://forms.gle/B25mkL6ntaK3tpeA8>

### **Positive observations -**

- Students are groomed to enhance the Communication skill and presentation skills
- Students start thinking to find solution of problem on their own way
- Enhance the team work, leadership and social responsibilities
- Students are groomed to reduce their stage fear
- Most of the students are active in this activity
- Most students like the idea of involving activities in teaching-learning

### **Negative observations -**

- In many group it has been observed that few students are inactive and not much involved.

# Practice (Problem Statement , Rubrics)

## Home Group

For the first part of the activity, students require to group into their HOME group. Each HOME group consists of four students which has been assigned different topics of Minimization Technique. The classification of sub topics are as follows:

1. Boolean Algebra
2. De-Morgan's Theorem
3. 4-Variables K-Map
4. 5-Variables K-MAP

	Student 1, Expert on	Student 2, Expert on	Student 3, Expert on	Student 4, Expert on
Minimizations Techniques	Boolean Algebra	De- Morgan's Theorem	4-Variables K-Map	5-Variables K- MAP

# JIGSAW ACTIVITY PICS

## EXPERT GROUP

In the next phase, students need to go to the EXPERT group (Group with the same topic) where they are sharing their own opinions and explanations regarding the assigned topics. After they achieved a good understanding regarding the topics, they will proceed to sketch the notes interactively to enable their HOME group to understand their given topics.

## JIGSAW ACTIVITY PICS

## **JIGSAW ROTATION**

In the last part of the activity, students need to return to their respective HOME group. After that, each student will explain the given subtopics to their fellow HOME group members based on the designed notes in the previous procedure. Their fellow group members can ask any questions and they can make a short discussion regarding the explained topics.

## Department of Electrical Engineering

### Note on Role Play

Role-play is a technique that allows students to explore realistic situations by interacting with other people in a managed way in order to develop experience and trial different strategies in a supported environment. It is a very flexible teaching approach because it requires no special tools, technology or environments. The students of 7<sup>th</sup> semester, Electrical Engineering organized role plays on 27<sup>th</sup> September, 2018 for B.Tech. Electrical Engineering 5<sup>th</sup> and 7<sup>th</sup> semester students in a seminar hall. Dr. Sudhir Sharma (HoD – EE), Dr. Chintu Rza (AP), Mr. Baljit Singh (AP), Mr. Mani Bansal (AP), Mr. Rahul Sharma (AP), Mr. Inderdeep Singh (AP) were present at the event. Topics for role play were i) System protection and ii) Working of alternator. The basic idea of “System protection” was to show how different types of protective schemes like relays, fuse, circuit breaker etc. are used for protection and also the role of an electrical engineer in clearing the fault. Similarly the basic idea of “Working of alternator” was to show how different parts of alternator like stator, rotor, exciter, prime mover etc., worked together to generate output and also to show the precautionary measures when there is fault in transformer. At the end, Dr. Sudhir Sharma (Head – EE) encouraged all the participants with his kind words. He appreciated the efforts done by the department of Electrical Engineering and motivated the students to participate more in future.

## Role Play: System Protection

# Crossword Puzzle

**Class: B. Tech.**  
**Subject: EM&I**  
**Date of Issue: 28-9-18/27-9-18**

**Semester: 3<sup>rd</sup>**  
**Tutorial Sheet No. 5**  
**Date of Submission: 28-9-18/27-9-18**

**Solve the crossword Puzzle**

**Across**

- 4. Bridge modification of wheatstone bridge
- 6. force required to move pointer from its zero position
- 9. damping used in galvanometers
- 11. It is control which can be used in vertical mounted instruments
- 13. In PMMC, first M stands for\_\_\_\_\_.
- 14. modern day potentiometer

**Down**

- 1. second name of universal shunt
- 2. employed to extend the range of voltmeter
- 3. used as detector in bridge circuits
- 5. used to extend the range of ammeter.
- 7. foster bridge to determine the difference between standard and unknown resistance
- 8. base unit of SI
- 10. used for null indication in measurements
- 12. In V.O.M, O stands for\_\_\_\_\_.

Approved by AICTE; Affiliated to IKG-PTU, Jalandhar | Managed by DAV College Managing Committee, New Delhi

Ref. No. : DAVIET/21-22/Exam/279

Circular

Dated : 05/10/21

### Circular

It is for the information of all the students of B.Tech., B. Com., BBA, BCA, and MCA (5<sup>th</sup> & 7<sup>th</sup> semesters only) that 1<sup>st</sup> Mid Semester Tests shall be held w.e.f. 11/10/2021 as per the schedule enclosed. A student failing to appear in any of the MSTs will lose the internal assessment related to that subject accordingly. Each MST shall be of 24 marks and 1.30 hrs duration.

#### Pattern of MSTs (Common to all streams)

- There will be six questions in each MST.
- Two questions (1&2) of 02 marks each, three questions (3, 4 & 5) of 04 marks each and one question (6) of 08 marks.
- Question Nos. 1 – 5 will be compulsory. Question no. 6 will have two choices and the student is required to attempt any one.
- Questions may have sub parts.
- Atleast 40% weightage shall be given to numerical based questions (if any).

#### Notes:

1. The students are advised to take their respective seats in the examination hall 15 minutes before the scheduled start of examination.
2. No extra sheet will be provided.
3. No student shall be allowed to leave the examination hall before half time; however, in case of an emergency a student can leave the examination hall early with the permission of the concerned invigilator.

  
Dr. Devinder Priyadarshi  
Controller of Examination

#### Copy to:-

1. Principal, for information please.
2. All HoD(s): To circulate the above information amongst the students of their respective departments.
3. Website Coordinator: To display the date sheet on the institute website.
4. Information corner, Departmental and Hostel notice boards.

Ref. No. : DAVIET/ 21-22/Exam/280

## Circular

Dated : 05/10/21

It is for the information of all the faculty members that I<sup>st</sup> Mid Semester Tests of 5<sup>th</sup> and 7<sup>th</sup> semesters shall be held w.e.f. 11/10/2021 as per the schedule enclosed. A student failing to appear in any of the MSTs will lose the internal assessment related to that subject accordingly. Each MST shall be of 24 marks and 1.30 hrs duration.

### General guidelines for framing the question paper:-

- The question paper shall be strictly in the format already circulated vide an O/o 5972 dated 23/08/2018.
- Questions of Mid Semester Test should be framed corresponding to various knowledge levels of Revised Bloom's Taxonomy.
- Questions of Mid Semester Test should be mapped with the course outcomes of the respective course.
- The course outcomes of the respective course shall also be printed on the question paper.
- 40% and 60% weightage shall be given to LOTS and HOTS respectively while setting the question paper.
- Atleast 40% weightage shall be given to numerical based questions if any.
- **It shall be the duty of the faculty members to intimate the undersigned regarding requirement of any extra material like Log Tables/Graph paper/ Semilog paper/Steam tables/ I S Codes etc. well in time.**

The concerned faculty members are requested to submit the required number of copies of the question paper corresponding to the strength of their class (in a sealed envelope) to the exam branch on or before 07/10/2020.

  
Dr. Devinder Priyadarshi  
Controller of Examination

<b>COURSE OUTCOMES (COs)</b> <i>Student will be able to</i>	
1	CO 1: know the performance of different energy sources and organization of power sector.
2	CO 2: to make use of load curves and related factors for determining power generation and selection of plants.
3	CO 3: carry out the economic analysis of electrical energy generation for different power plants.
4	CO 4: aware of different tariff plans with need and methods to improve power factor.
5	CO 5: to demonstrate the engineering issues in scheduling of thermal and combined hydro & thermal power plants, cogeneration plants along with their environmental aspects.

Subject: Attendance-cum-Performance Report - MST1

Dear Sir/Madam,

The attendance and MST1 record of your ward Arshdeep Singh Roll No.309/18 studying in B.Tech-EE-3 Semester is as under:

Attendance Record from - 16/Jul/2019 to 17/Sep/2019		Maximum Marks for each subject are 24								
S.no	Subject	Theory		Tutorial		Practical		Percentage	Marks Obtained	Highest Marks
		Att.	Del.	Att.	Del.	Att.	Del.			
1	MENTORING & PROFF.DEVELOPMENT STUDENTS	0	0	7	7	0	0	100.00		
2	ELECTRICAL MACHINES - I LABORATORY	0	0	0	0	12	15	80.00		
3	ANALOG ELECTRONICS LABORATORY	0	0	0	0	12	12	100.00		
4	ENGINEERING MECHANICS	21	22	3	3	0	0	96.00	21	21
5	INDIAN CONSTITUTION	20	22	0	0	0	0	90.00	14	21
6	ELECTRICAL MACHINES - I	22	24	0	0	0	0	91.00	16	19
7	ANALOG ELECTRONICS	22	24	0	0	0	0	91.00	11	16
8	ELECTROMAGNETIC FIELDS	20	20	5	6	0	0	96.00	24	24
9	ELECTRICAL CIRCUIT ANALYSIS	24	24	9	9	0	0	100.00	16	21
<b>Total</b>		129	136	24	25	24	27	94.15	<b>PASS - 70.83 %</b>	

Minimum Attendance requirement is 75%

Passing Marks required for each subject is 40%

**Remarks:**

- 1) Your ward is quite regular in the classes. He/She has a chance to be a part of the elite excellent attendance rating by making an extra effort
- 2) Your ward is performing well. He/She has a potential to perform better. Encourage him/her for the same.
- 3) Your ward is not participating in Co-/Extra Curricular activities. Please encourage him/her to participate in these activities.

Note: You are requested to make a remark on this note i.e. seen and send it back with feed back/comments to the Institute at the earliest for our record purpose. You may also post your feedback at [rahulruddra@gmail.com](mailto:rahulruddra@gmail.com)

# DAV INSTITUTE OF ENGINEERING & TECHNOLOGY

Kabir Nagar, Jalandhar, Punjab - 144 008

**Accredited by NAAC with "A" Grade & Recognized by UGC under Section 2(f)**

Approved by AICTE; Affiliated to IKG-PTU, Jalandhar | Managed by DAV College Managing Committee, New Delhi

Ref. No. : DAVIET/21-22/Exam/378

Circular

Dated : 9/12/21

It is for the information of faculty and staff that as per the University guidelines, the performance of both the MST(s) is to be taken into account for the internal assessment awards. The entire record pertaining to the awarding of the internal assessment is to be maintained and will be verified by the rationalization committee constituted by the University. However, the students of 5<sup>th</sup> and 7<sup>th</sup> semesters who have already appeared in both the MSTs and their awards have been communicated to them may improve upon their performance in the makeup test(s), which shall be conducted from 16/12/21 to 18/12/21 by the respective subject incharges (Course Instructor).

A student shall adopt the following procedure for appearing in the makeup test.

1. The student desirous of appearing in the makeup test shall fill up the form (available on the website) and get it endorsed from the Exam Branch, DAVIET.
2. The student shall then take a photocopy of the form and deposit the requisite fee in the accounts office.
3. The photocopy of the form shall be retained by the accounts office.
4. The student shall then take the original application form and original receipt to the concerned course instructor for conducting the makeup test.

The last date for depositing the fee in the accounts office is 13/12/21. The student shall report to the course instructors latest by 10:00 a.m. on Wednesday, December 15, 2021.

The students applying for the makeup test in a particular course shall appear in a common test as planned by the concerned course instructor during the above mentioned dates only.

The course instructors shall maintain complete record of the makeup tests conducted by them and shall consider the performance of the students in the makeup test for awarding final internal assessment awards.

## Department of Electronics & Communication Engineering

Programme	B. Tech. (ECE)	Semester	5 <sup>th</sup>
Subject Code	BTEC-504-18	Subject title	Control Systems
MST	Make-Up Test	Course Coordinator	Ms. Poonam Sethi
Max. Marks	24	Time Duration	1 Hour 30 Minutes
Date of MST	16.06.2022 (Shift-II)	Roll No.	

**Note: Attempt all questions.**

Ques. No.	Question	COs, RBT Level	Marks
1	Give an example of industrial control system.	CO4, L2	2
2	For a system having characteristic equation $2s^4+4s^2+1=0$ , determine stability using Routh-Hurwitz criteria.	CO2, L4	2
3	For a unity feedback control system whose open loop transfer function is given, determine static error coefficients and steady state error for unit step and unit ramp input. $G(s) H(s)=K/[s(s^2+4s+200)]$	CO2, L4	4
4	Discuss mathematical modelling of pneumatic system.	CO4, L3	4
5	Draw Nyquist plot for the function $1/s^2(s+1)$ and comment on stability.	CO2, L4	4
6	Determine the transfer function $C/R$ for the system shown in Fig. using Block diagram reduction technique and verify the answer using Mason's gain formula.	CO1, L6	8
<b>OR</b>			
	Derive an expression for rise time, peak time and max overshoot for a second order control system.	CO2, L6	

**Course Outcomes (COs):**

Students will be able to

1. Characterize a system and find its study state behaviour
2. Investigate stability of a system using different tests
3. Design various controllers
4. Solve linear, non-linear and optimal control problems

## Internal Evaluation system followed by the institute as per IKGPTU

### Internal Evaluation

<b>Total Internal Marks</b>	<b>: 40</b>	Attendances : <75%	: 00
First Mid-term Examination	: 12	Marks breakup: 75% to 80%	: 02
Second Mid-term Examination	: 12	: 81% to 85%	: 03
Attendance	: 06	: 86% to 90%	: 04
Assignments	: 05	: 91% to 95%	: 05
Tutorials	: 05	: 96% to 100%	: 06

**Course Exit Survey (Python Programming) Session 21-22**

Timestamp	Name	Roll No	Read and write simple Python programs	Develop Python programs with conditionals and loops.	Define Python functions and to use Python data structures and lists, tuples, dictionaries.	Perform input/output operations with files in Python.	Execute Searching, sorting and merging in Python.

## **Questionnaire for Student Feedback on Faculty**

1. The teacher had the thorough and comprehensive knowledge of subject.
2. Soft Skill of subject in-charge in handling of contents?
3. Online learning materials/notes provided by the subject in-charge in enhancing my understanding of the subject?
4. The teacher thoroughly answered the student's questions?
5. There was positive interaction between students and teacher?
6. Quality of work was emphasized more than quantity?
7. You were encouraged to do extra reading about the course material?
8. The teacher gave assignments that were useful for learning subject matter?
9. Students were free to interrupt presentations if points needed clarifications?
10. Video, sound quality and duration of video lectures prepared by subject in-charge?
11. Lectures were held regularly and on time?
12. Students were introduced with the relevant information viz, Registration and certification for MOOC based online course as a supplement activity to the course?
13. Students were introduced with the relevant information on "Virtual Labs" for the course?
14. The online teaching technologies used by the subject in-charge in enhancing my understanding of the subject?
15. Overall rating of the online teaching activities in this subject?

**Subject: Appreciation letter for the conduct of the Online Classes during on-going Covid-19 pandemic.**

Sir/Madam,

**Greetings from IKGPTU !**

At the outset, I hope that all will be safe and healthy at your esteemed institution during this Covid-19 pandemic.

Further, in compliance to our letter No. IKGPTU/DA/2832 dated 19-05-2021; your good office has submitted the links of online classes along with the timetable of courses of the current semester in the prescribed format for virtual inspection by the University inspection team.

I understand that online teaching during this pandemic is a huge task for all the educational institutions. I am really glad to share with you that during virtual inspection by our inspection team, the report of your esteemed institute regarding conduct of online classes have been found satisfactory. The timetable of conduct of online classes has been prepared very meticulously by the team of your faculty members under your able guidance. The inspection team of the University is impressed with the teaching methodology of your faculty during the online classes. I really appreciate the way in which your faculty members are putting in a lot of effort to conduct online classes in an innovative way and also grab the attention of the far-flung students. Your institute has done a commendable job by providing quality education (by virtual mode also) to our budding students.

At the end, I extend my best wishes to your institute, faculty and staff who are earnestly doing their duty during these difficult times of Covid-19 pandemic and hope that your institute will continue this in future also for the benefit of the students and society.

**With Regards,**

**Prof.(Dr.) Vikas Chawla**  
Dean (Academics)

**IK Gujral Punjab Technical University  
Notification**

Ref. No.: *IKGPTU/Reg/NF/26*

Date: *01/03/17*

The Vice Chancellor of the IK Gujral Punjab Technical University is please to constitute the following Board of studies for a period of two years from the date of notification. The board of studies shall be under the guidance of concerned Faculties headed by Dean, Faculty. Board of studies listed in Part-A, shall function under the chairmanship of Head of Concerned Teaching Departments in the University Campus. In subjects for which Teaching Department are yet to be established in the University Campus as listed in Part-B, shall continue to function under the supervision of Dean (Academics) with one internal faculty member as BOS coordinator from IKGPTU internal system.

# IKG PUNJAB TECHNICAL UNIVERSITY, JALANDHAR

## Minutes of Meetings

A meeting of Board of Studies, Computer Science Engineering, was scheduled on 6<sup>th</sup> July 2017 at 11.30 a.m. in Seminar Hall, 2<sup>nd</sup> floor, Dept. of Academics, IKGPTU, Kapurthala.

The agenda of the meeting was to discuss and finalize:

- Scheme and syllabi for M.Tech. ( Big Data Analytics) 2016 batch
- Scheme and syllabi for M.Tech. (Computer science and Engineering) 2017 batch
- Scheme for B. Tech. (Computer science and Engineering) 2017 batch
- Equivalence of Ph. D. in Computer Applications with Ph. D in Computer Sc. and Engineering
- Any other matter with the permission of chair

**Following Members were Present at the meeting:**

Dr. Monika Sachdeva, IKGPTU Main Campus, *Chairman (Ex-officio)*  
Dr. Akshay Girdhar, Professor, GNDEC, Ludhiana  
Dr. Baljit Singh, Professor, BBSEC, Fatehgarh Sahib  
Dr. Rajesh Bhatia, Panjab Technology University, Chandigarh, *outside Expert*  
Dr. Krishan Saluja, Panjab University, Chandigarh, *outside Expert*  
Dr. R.C. Gangwar, Associate Professor, BCET, Gurdaspur  
Dr. S.K. Gupta, Associate Professor, BCET, Gurdaspur  
Dr. Dinesh, Associate Professor, DAVIET, Jalandhar  
Dr. Anshu Bhasin, IKGPTU Main Campus, *Member*  
Dr. Sumesh Sood, IKGPTU Dinanagar campus, *Member*  
Dr. Raman, IKGPTU Dinanagar Campus, *Member*  
Mr. Vipin, Industry Expert, *Special Invitee*

**Following members could not attend the meeting:**

Dr. Parminder Singh, Professor, GNDEC, Ludhiana  
Dr. Harsh Verma, NIT, Jalandhar, *outside Expert*  
Mr. Navdeepak Sandhu, Training and Placements, IKGPTU, Kapurthala

The Board took the agenda and following decisions were taken.

1. The scheme and syllabi for M Tech (Big Data Analytics) has been approved.
2. The scheme for M Tech (CSE) for the batch 2018 has been finalized.
3. Every student has to earn 20%-25% credits through MOOCs courses. The department will decide the equivalency of existing courses with the MOOCs courses for online learning.
4. An open elective may be introduced in third semester of M. Tech. (CSE).
5. Evaluation criteria for evaluating M. Tech. dissertation may be as follows:
  - a. Papers published in SCI/SCIE journals may be assigned grade 'O'.
  - b. Papers published in SCOPUS indexed journals may not be assigned above grade 'A+'.
  - c. Papers published in UGC approved journal list not covered above and IEEE/Springer/ACM/Procedia may not be assigned above grade 'A'.
  - d. Other grades may be assigned based on the performance of students below grade 'A'.
6. Due to shortage of time the scheme of B. Tech. (CSE) could not be taken up. However, the board was of opinion that a course "Soft Skills (covering all placement pre-requisites)" may be introduced from third semester onwards.
7. The committee strongly recommended workshops/short term courses on latest technologies due to major revisions in both B. Tech. and M. Tech. curriculum.
8. The board was of view that Ph.D. in Computer Applications may be considered equivalent to Ph.D. in Computer Science. However, it should be considered under Faculty of Sciences.
