Guidance for Competitive Examinations & Career Counselling

June 2020 to Dec 2020

Technical Quiz on Programming (C/C++)

A Technical quiz on Programming (C/C++) was organized for students of B.Tech CSE 4th semester on 20th January, 2020. The test consisted of 30 multiple choice questions which were to be answered in 30 minutes. Students were able to identify the areas of weaknesses so as they could further enhance their knowledge and skills on those fields to improve their performance. A total of 57 students attempted the quiz.

Technical Test on SQL and Information Security

A Technical Test on the subjects- SQL and Information Security, was conducted for CSE 6th Semester Students on 24-Feb-2020. In total, 50 students appeared for the test. The test consisted of 32 multiple choice questions which were to be covered in 20 minutes. The motive of this Technical Test was to give students an idea of the Technical Questions to be asked in Placement Tests. Students were able to identify their personal areas of weakness so as they could further enhance their knowledge and skills in those fields to improve their performance.

Subject: IMPORTANT: Regarding EMPLOYABILITY SKILL TRAINING.

Dear Student,

Aptitude is basically defined as an innate, learned or acquired ability of an individual to perform certain tasks. Aptitude tests inculcate many factors like Numerical reasoning, verbal reasoning, abstract reasoning, speed, accuracy, and other such abilities.

Most commonly these tests would ask the student a question about their Skills, Values, Likes, Dislikes and their innate abilities. The test measures the strongest and the weakest areas in each realm of understanding and the innate psychometric ability that the student may possess. Usually, these tests involve the use of psychometric tests consisting of multiple-choice questions, wherein a student has to select any one choice out of the given options.

Most of the companies use aptitude tests as a way to assess the specific capabilities of potential candidate. They are often used as a method of screening to identify high caliber candidates. The content of an aptitude test, particularly in an industry such as innovation, needs careful thought and consideration. They are used to assess candidates in terms of their skills, knowledge, ability and personality. Aptitude tests are an accurate way of predicting the potential contribution of a candidate and the likelihood of them achieving success within the organization. It can sometimes be difficult from an interview alone to assess the candidate's skills, so an aptitude test provides the company with a greater insight into their capabilities.

Poor Performance of Students in the SAT: As you all are aware that department of training and placement had conducted two **Online Skill Assessment Test (SAT I & SAT II)** on April 20 & 21, 2020. These tests were designed in the same pattern as conducted by various companies that came for the placements on campus in various previous placement drives. These tests evaluated students on Aptitude skills, communications skills and Programming skills. These three skill sets are majorly responsible for final placement of the students.

After analyzing the results it was found that in both tests (SAT I & SAT II), on an average 12% of the students were able to qualify. And this fact was already shared. It was forecasted that if the same situation persisted and students were not trained on the above mentioned skills (Aptitude skills, Communication skills and Programming skills), we might face problems during the final placement drive. Now, at this juncture we can see that the results are same as predicted. Even with a record number of companies visiting the campus the number of students placed has not increased owing to their poor performance in the placement process.

Further I would also like to share with you the sorrowful news that due to COVID pandemic many of the corporate houses have stopped their hiring which may decline the number of company's visits our institute for placements this year.

Hence to strengthen the placement count of the institute even during the COVID Pandemic, Department of Training & Placement is going to organize the Online Employability Skill Training (EST) program for B.Tech (All Streams), MBA and MCA students.

Interested students may register to the following link latest by August 17, 2020.

An extension lecture on 'Tax planning and procedure of filing income tax returns' organised by the DAV Institute of Engineering and Technology in progress. TRIBUNE PHOTO

LECTURE ON TAX PLANNING

Jalandhar: The Department of Business Management of DAV Institute of Engineering and Technology organised an extension lecture on the topic "Tax planning and procedure of filing income tax returns" for the students of MBA, BBA and BCom (Hons) under the leadership of Principal Dr Manoj Kumar and guidance of HOD Dr Anil Soni. The main objective of the lecture was to inculcate knowledge of practical aspects of the subject among the students to make them fit for the industry and reducing the gap between the industry and academia. CA Puneet Oberoi and CA Priyanka Verma from Puneet Oberoi and Co were the e-resource persons of the extension lecture. They are well-known in their fields and are experts in direct and indirect taxes. CA Puneet discussed various methods of tax planning in simplified ways and differentiated between tax planning, tax evasion and tax avoidance with the help of interesting examples and video dippings. He also elaborated with facts and figures that only a few percentage of the population of India, which is liable to pay taxes, was actually paying the tax. CA Priyanka enlightened the students with various types of returns and procedure of e-filing income tax return in an elaborate and easy form. Formal vote of thanks was been delivered by Dr Suman Tandon, convener of the event. Principal Dr Kumar appreciated the efforts of the department for organising the event. The lecture turned out to be informative and interactive for the students.
