Departmental Profile

Department of Information Technology (DoIT)

The Department of Information Technology is a part of the DAV Institute of Engineering and Technology. The Department was established in 2002. We offer program leading to the Bachelor of Technology in Information Technology. We are a growing department with an outstanding faculty, keeping pace with the rapid proliferation of, and advances in, computing and information technology. Our commitments to quality undergraduate teaching and strong research programs provide a solid foundation for those seeking to become well-prepared, talented, and indispensable computing professionals. Approximately 250 full-time undergraduates are pursuing their degree in IT. The departmental faculty actively participates and provides leadership to major research centers on campus. Opportunities to pursue faculty supervised undergraduate research and project work are readily available. The department makes extensive use of wideband connectivity to the commodity Internet. Students and faculty have ready access to advanced computational hardware and software both through Institute resources as well as through our more specialized laboratory workstations. The Bachelor of Information Technology with a major in Computer Science is accredited by the, All India Council for Technical Education (AICTE), a specialized accrediting body recognized by the Council for Higher Education Accreditation.

OUR VISION

“To become pioneer in information technology education and research by creating employable personnel; empowered with technical skills on diversified technological fronts with inbuilt intellectual base at undergraduate and postgraduate levels”

OUR MISSION

M1: To produce industry ready professionals catering to the needs of IT/ITeS.

M2: To promote industry-academia interaction for bridging the gap between academic and industrial application in emerging IT Technologies.

M3: To encourage in-house development of various IT applications by under-graduates to strengthen techno-managerial skills

PROGRAM EDUCATIONS OBJECTIVES

PEO1: To empower students with substantial knowledge in mathematics, scientific and primitive engineering concepts required to solve computing problems and pursue higher studies.

PEO2: To equip students with profound knowledge about the vital information technology and allied engineering concepts to deal with industry oriented problems and develop novel products.

PEO3: To inculcate professional-social ethics, team work in students and acquaint them with requisite technical and managerial skills to attain a successful career.

PROGRAM SPECIFIC OUTCOMES

PSO1: Apply standard practices for software project development using hands-on programming skills for analysis, design and creation of software solutions.

PSO2: Design networks and also aware of network security related issues

PSO3: Create and maintain database for providing back-end support to IT applications.

PROGRAM OUTCOMES

After the successful completion of undergraduate course IT Engineering, Graduates will be able to:

PO1. Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization for the solution of complex engineering problems.

PO2. Identify, formulate, research literature, and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

PO3. Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, and cultural, societal, and environmental considerations.

PO4. Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO5. Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools, including prediction and modelling to complex engineering activities, with an understanding of the limitations.

PO6. Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

PO7. Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

PO8. Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

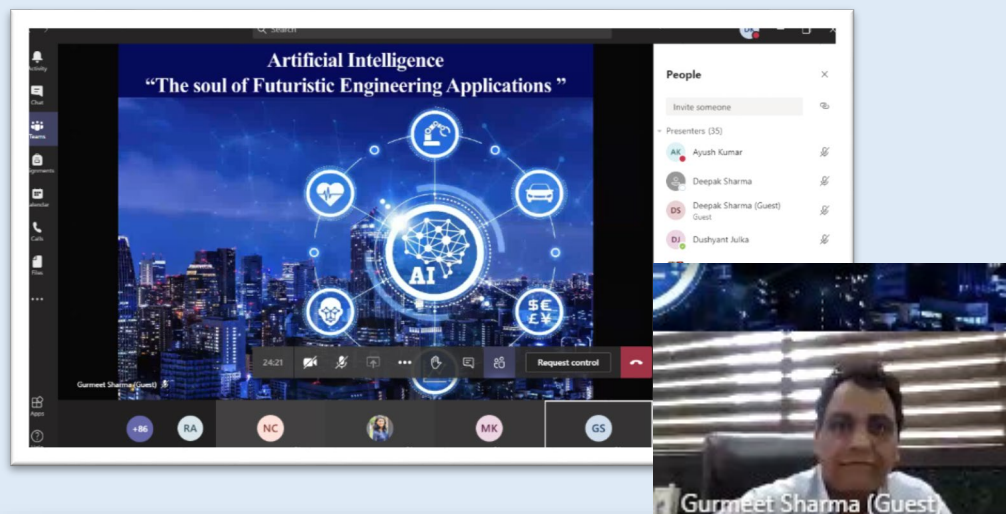

PO9. Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

-
- PO10. Communicate effectively on complex engineering activities with the engineering community and with the society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.*
- PO11. Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.*
- PO12. Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.*

Departmental Activities

Expert Talk

- ✓ Department of Information Technology at DAVIET, Jalandhar has always been a front liner in providing adequate and timely knowledge and training to the students of the department. In this pandemic situations, along with regular online classes, we are also putting our efforts in arranging expert talks/seminars and workshops on upcoming technological fronts for our students so that they can learn these technological by sitting at their homes. With this objective, department has organized first expert talk, out of compendium of planned technical events, on 28/8/2020 for B.Tech- IT 3rd & B.Tech- IT 5th Semester students by Online Mode.
- ✓ The topic of the expert talk: "Data Science, Machine Learning & Artificial Intelligence: What it is & Why it Matters? "
- ✓ Guest Speaker of this event was Mr. Gurmeet Sharma, Technical Director, Eureka Electrosoft Solutions Pvt. Ltd, Chandigarh

Expert Talk on Machine Learning

- ✓ An expert lecture on “Machine Learning” was conducted by Mr. Abhinash from CETPA, Noida on 29 October 2020 for the students of B Tech IT through Online Mode. The whole motive of this task was to make students aware about the latest advancements in the field of Machine Learning & Artificial Intelligence.

What is SPA (Single Page Application)?

- A single-page application is an app that works inside a browser and does not require page reloading during use.
- You are using this type of applications every day. These are, for instance: Gmail, Google Maps, Facebook or GitHub.

Workshop on Bug Bounty/Penetration Testing

- ✓ Department of Information Technology, DAVIET organized a workshop on Bug Bounty/Penetration Testing on 23/12/2020 under the CSI (Computer Society of India). Students from all the students of the department.

Faculty/Staff Achievements

- ✓ Dr. Dinesh Kumar has attended TEQIP-III sponsored one-week MASTER CLASS on DATA SCIENCE AND ITS APPLICATIONS held on November 21-25, 2020, organized by the Department of Computer Science and Engineering, Guru Nanak Dev Engineering College, Ludhiana in Collaboration with Sabudh Foundation, Mohali, Punjab.
- ✓ Dr. Dinesh Kumar has One Week Online Faculty Development Program on "OUTCOME BASED EDUCATION - A Continuous Quality Improvement of the Program" Organized by Department of Computer Science and Engineering, S R K R Engineering College from 17th - 21st August 2020
- ✓ Dr. Dinesh Kumar has successfully completed the online Specialization Machine Learning with TensorFlow on Google Cloud Platform. This is a five course specialization from Google Cloud Training.

Student Achievements

✓ Merit Positions in IKGPTU Examinations

19 students of the department secured merit positions in IKG Punjab Technical University, Examinations
