Huawei ICT Academy Skills Competition India 2018

Huawei runs an annual global ICT Skills competition, providing a platform for young people to showcase their skills. The Department of Computer Science and Engineering organized various stages of Huawei ICT Academy Skills Competition India 2018 in coordination with Mr. Anurag Bayla, Founder & CEO, Techies InfoTech, Amritsar.

Competition Stages:

- Stage 1: Mock test – This was an online test containing 60 questions to be completed in 90 minutes on basics of Data Networking, LAN, WAN, IP Fundamentals, Routing and Switching, Data Security, and Cloud Computing. Students were advised to read Huawei learning material made available to them. The top 200 students were awarded Huawei Global certification vouchers worth USD 200 to attempt the Global HCNA – Routing and Switching Exam and achieve global certification. In addition, the Top 50 out of these 200 students got free training by Huawei Authorized Learning Partner – Cognitel.
- Stage 2: HCNA Routing and Switching Global Certification Exam Huawei Global Certification exam was conducted on February 21, 2018. It examined individual's knowledge on Network fundamentals, Basic connection methods of popular networks, Basic network construction, Trouble-shooting of common network faults, Installation and commissioning of Huawei routing and switching devices.
- Stage 3: Preliminary Round – This was a classroom test conducted by Huawei, on March 1, 2018 testing theoretical knowledge on IP and IT. The top 50 students of this round qualified for National Finals.
- Stage 4: National Finals – This was classroom test conducted by Huawei on March 26, 2018 containing practical knowledge using Huawei NSP tool.

Three students of B. Tech CSE 6th semester Rishab Nagpal, Ritika, Rishav Aggarwal participated in National Finals and received Certificates of Achievement for the same.

Mr. Rishav Aggarwal, student of B. Tech CSE 8th Semester student secured 2nd position in the National Finals of Huawei ICT Competition India 2018-19. He was honored at an award ceremony, held on 29th March 2019 at Gurgaon where he received his trophy, certificate and Huawei mobile phone. Rishav has been shortlisted to participate in a fully sponsored International Competition – Huawei ICT Global Finals, scheduled at Shenzhen China in May.

Technical Quiz on Programming (C/C++)

A Technical quiz on Programming (C/C++) was organized for students of B. Tech CSE 4th semester on 20th January, 2020. The test consisted of 30 multiple choice questions which were to be answered in 30 minutes. Students were able to identify the areas of weaknesses so as they could further enhance their knowledge and skills on those fields to improve their performance. A total of 57 students attempted the quiz.

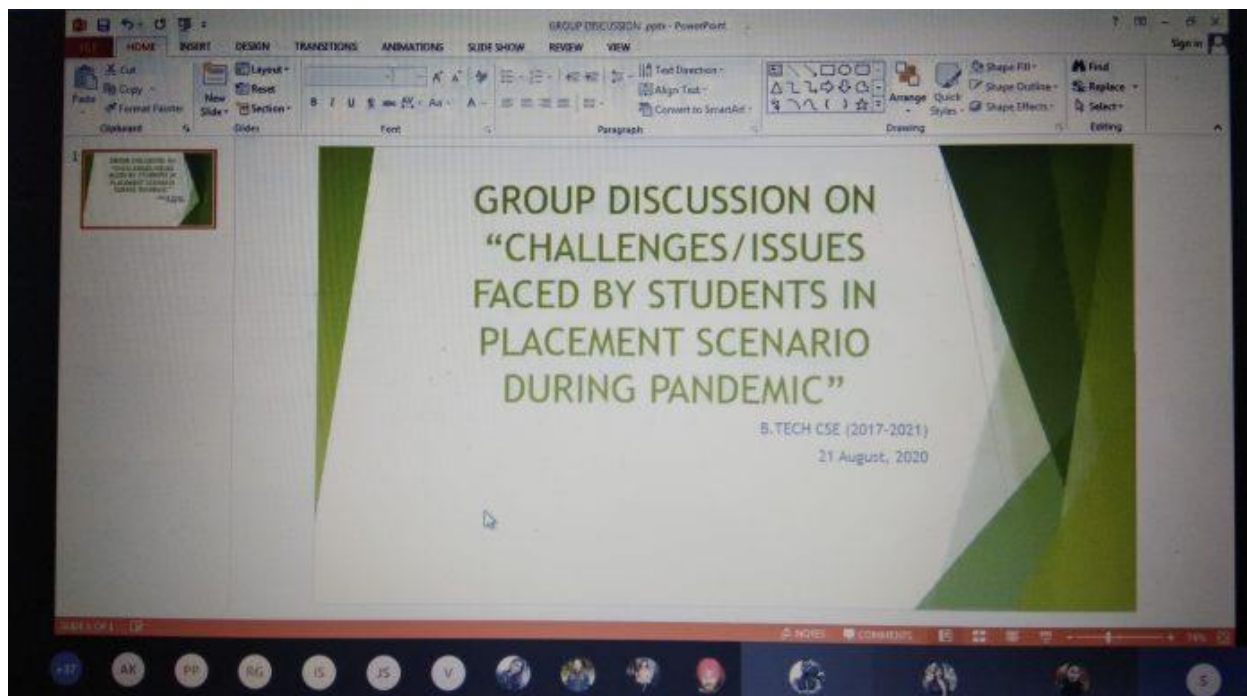

Technical Test on SQL and Information Security

A Technical Test on the subjects- SQL and Information Security, was conducted for CSE 6th Semester Students on 24-Feb-2020. In total, 50 students appeared for the test. The test consisted of 32 multiple choice questions which were to be covered in 20 minutes. The motive of this Technical Test was to give students an idea of the Technical Questions to be asked in Placement Tests. Students were able to identify their personal areas of weakness so as they could further enhance their knowledge and skills in those fields to improve their performance.

Students Participating in the Test

Group Discussion on Challenges and issues faced by students in Placement scenario during Pandemic

The Department organized an online Group Discussion session on “CHALLENGES AND ISSUES FACED BY STUDENTS IN PLACEMENT SCENARIO DURING PANDEMIC” on 21 August, 2020 with the students of B.Tech CSE 7th semester via Microsoft Teams Platform. The motive of conducting Group Discussion amongst the students is to address the challenges and issues faced by them with respect to changing placement scenario during this pandemic. The students were given 15 minutes to think over the topic before opening the discussion. A total of 58 students participated in the session. The Group Discussion session lasted for about 30-35 minutes. The highlighted points of the group discussion were:-

1. Changing demands of Industry during Pandemic.
2. Change in Placement numbers and trends with respect to specific profiles/roles.
3. Challenges faced by students while undergoing online placement drives (test and interview process).
4. And as a result of above changes and challenges, students have to update their skills and preparation strategy accordingly.

Subject: IMPORTANT: Regarding EMPLOYABILITY SKILL TRAINING.

Dear Student,

Aptitude is basically defined as an innate, learned or acquired ability of an individual to perform certain tasks. Aptitude tests inculcate many factors like Numerical reasoning, verbal reasoning, abstract reasoning, speed, accuracy, and other such abilities.

Most commonly these tests would ask the student a question about their Skills, Values, Likes, Dislikes and their innate abilities. The test measures the strongest and the weakest areas in each realm of understanding and the innate psychometric ability that the student may possess. Usually, these tests involve the use of psychometric tests consisting of multiple-choice questions, wherein a student has to select any one choice out of the given options.

Most of the companies use aptitude tests as a way to assess the specific capabilities of potential candidate. They are often used as a method of screening to identify high caliber candidates. The content of an aptitude test, particularly in an industry such as innovation, needs careful thought and consideration. They are used to assess candidates in terms of their skills, knowledge, ability and personality. Aptitude tests are an accurate way of predicting the potential contribution of a candidate and the likelihood of them achieving success within the organization. It can sometimes be difficult from an interview alone to assess the candidate's skills, so an aptitude test provides the company with a greater insight into their capabilities.

Poor Performance of Students in the SAT: As you all are aware that department of training and placement had conducted two **Online Skill Assessment Test (SAT I & SAT II)** on April 20 & 21, 2020. These tests were designed in the same pattern as conducted by various companies that came for the placements on campus in various previous placement drives. These tests evaluated students on Aptitude skills, communications skills and Programming skills. These three skill sets are majorly responsible for final placement of the students.

After analyzing the results it was found that in both tests (SAT I & SAT II), on an average 12% of the students were able to qualify. And this fact was already shared. It was forecasted that if the same situation persisted and students were not trained on the above mentioned skills (Aptitude skills, Communication skills and Programming skills), we might face problems during the final placement drive. Now, at this juncture we can see that the results are same as predicted. Even with a record number of companies visiting the campus the number of students placed has not increased owing to their poor performance in the placement process.

Further I would also like to share with you the sorrowful news that due to COVID pandemic many of the corporate houses have stopped their hiring which may decline the number of company's visits our institute for placements this year.

Hence to strengthen the placement count of the institute even during the COVID Pandemic, Department of Training & Placement is going to organize the Online Employability Skill Training (EST) program for B.Tech (All Streams), MBA and MCA students.

Interested students may register to the following link latest by August 17, 2020.

Industry Week (5th March -9th March, 2018) Of CSE

The Department of Computer Science and Engineering organized Workshop on “Big Data Analytics using Hadoop” by Dr. Manish Arora (Additional Director) and Mrs. Anita Budhiraja, Joint Director (Systems), National Institute of Electronics and Information Technology (NIELIT), Chandigarh for students of B. Tech CSE 6th semester from March 5-9, 2018 in industry week.

The objective of the workshop was to develop analytics skills on large set of data using latest tools and technology covering Hadoop, Hive, HBase etc. in single node and multimode cluster. Students were able to understand the role of big data technologies and tools in analysis and adoption of these tools in analysis of large set of data varying from structured to unstructured form.

Resource Person: Dr. Manish Arora (Additional Director) and Mrs. Anita Budhiraja, Joint Director (Systems), National Institute of Electronics and Information Technology (NIELIT), Chandigarh

Day	Topics Covered Day –wise
1	Introduction to Big Data, tools and techniques for data analytics, Ubuntu Operating Systems and its commands
2	Object Oriented Programming with java, Hadoop Framework, Hadoop Commands
3	Map Reduce Programming, HIVE data warehouse
4	HIVE-UDF, HIVE JDBC, R programming
5	Introduction to HBASE, JAQL, PIG. Big data analysis Projects

Workshop on Cloud Computing

The Department organized a Workshop on Cloud Computing for the students of B.Tech CSE 4th and 6th semester on 28th February, 2019 by Solitaire Infosys. Solitaire Infosys is a Mohali based software training and internship facilitator which deals in vast IT technologies ranging from Block Chain Technologies to Artificial Intelligence.

Resource Person: Experts from Solitaire Infosys, Mohali

Cloud Computing is a technological challenge which deals with Computational operations and storage of Data over the Cloud. Google Cloud Platform, Amazon Web Services and Microsoft Azure are used to tackle this problem of handling data to analyse and make useful inferences from the available resources. Students were made aware of multiple tools available under GCP like NLP, Computer Vision, Text to Speech. The various problems concerned with the use of cloud computing were discussed.

Glimpses of the Workshop

Workshop on Git hub Quality Assurance

The Department of Computer Science and Technology organized 2 Days Workshop on Git Hub Quality Assurance for the students of B. Tech CSE 4th and 6th semester on March 7-8, 2019 by O7 Services. The students were enlightened with trending technologies such as React JS, Flutter, Azure DevOps, MEAN stack.

Workshop on Big Data

The Department of Computer Science and Technology organized a Workshop on Big Data for the students of B. Tech CSE 4th and 6th semester on 1st February, 2019 by Apron .Apron is an NCR based software training and internship facilitator which deals in vast IT technologies ranging from machine learning to cloud computing. Big data is a technological challenge which deals with large volume of structured, semi structured and unstructured data. Hadoop framework is used to tackle this large volume data to analyze and make useful inferences from the data. Basic working of Hadoop framework was discussed, and usage of tool explained. Hadoop file storage techniques, formats and logical file organization were discussed in detail. Students were also made aware of multiple tools available under Hadoop framework like Pig, Yarn, Hive and their applications in various Big-Data problems. The various sources of data generation, the types of data they generate and use cases of tools were discussed. It was an informative and interesting workshop and students enhanced their know-how and learnt a lot of practically useful things about the big-data technology.

Resource Person: Expert from Apron

Glimpses of the Workshop

Workshop on Cyber Security

The Department organized a Workshop on Cyber Security for the students of B.Tech CSE 4th and 6th semester on 6th March, 2019 by Mr. LJ Singh, Director and Founder of Cyber Defense Intelligence (CDI). Cyber security is the protection of internet-connected systems, including hardware, software and data, from cyber-attacks.

In a computing context, security comprises cyber-security and physical security – both are used by enterprises to protect against unauthorized access to data centers & other computerized systems. Various security threats and real-world security applications were also discussed.

Resource Person: Mr. LJ Singh, Director and Founder of Cyber Defense Intelligence

e-Poster making contest on 'Future trends in Computer Technology

e-Poster making contest on 'Future trends in Computer Technology' was organized by Computer Application department on 11/9/2019 for the students of BCA 1st year. This event was organized to sharpen the skills as well as unravel the hidden talent of the students who just entered the college. In this event, the students had to design an E-Poster (Digital Poster) on the theme “FUTURE TRENDS IN COMPUTER TECHNOLOGY”. The students were given the prizes and certificates based on the E-posters they designed. Students participated with full enthusiasm and zeal.

Report on Technical Quiz

Electronics and Communication Engineering Department conducted a **Technical Quiz** for the students of B.Tech ECE-2nd Year and B.Tech ECE-3rd Year. The quiz had two levels which included prelim and final quiz. More than 50 Students of the department took part in prelims which were held on September 02, 2019; out of which three teams of 3 students each were selected on the basis of questionnaire results. They were given 1 week for the preparation of the final round which was held on September 09, 2019. The students of B.tech 2nd year and 3rd year participated in this quiz with full enthusiasm. Dr. Neeru Malhotra, HOD of ECE congratulated the winners and encouraged the students to participate in such events. The winners of the quiz were given **TI LaunchPad kits with MSP430 MCU** of TEXAS INSTRUMENTATIONS by the faculty and the staff of the department.

Industry Week by CSE Department

(October 7, 2019 - October 9, 2019)

Day-1 (October 7, 2019)

A workshop was conducted by O7 Services Jalandhar for the students of B.Tech CSE 3rd and 5th semester on October 7, 2019. The technical session was typically based on one of the current and latest technology trend 'Python'. In order to make the session more informative and interactive, the mentors from O7 Services covered the topics related to the basics of Python programming, a little introduction of IOT, Raspberry Pi and Machine Learning.

**Resource Person: Mr. Gaurav from O7 Services Jalandhar And
Experts from iTronix Solutions
Experts from RADIUS, Bombay**

Python Programming topics:

- Loops
- Operators
- Functions

Python Libraries:

- Pandas
- Numpy
- Tkinter

Glimpses of the Event

Day-2 (October 8, 2019) Two sessions were organised for the students of B.Tech CSE 3rd, 5th and 7th semester on October 8, 2019. The first session was conducted by a company named iTronix Solutions on Introduction to basic networking devices, different data models, implementation of

different routing protocols using CISCO packet tracer and the second session was on Aptitude Building covering the tricks to solve the computational problems.

Day-2 of the Industrial Week

Day-3 (October 9, 2019)

A seminar was conducted by a company 'RADIUS' from Bombay for the students of B.Tech CSE 3rd , 5th and 7th semester. The session was typically based on the current and latest technology trends used in IOS. In order to make the session more informative and interactive, the mentors from 'RADIUS' covered the following topics: Introduction to IOS.

- A Brief about different operating systems.
- About different IOS devices.
- Uses of IOS devices in higher education systems.
- About the IOS coding application software named as: Everybody can code and everybody can create

Day-3 of the Industrial Week

Machine Learning Seminar by iTronix Solutions

A seminar was conducted by iTronix Solutions on October, 7 2019 for students of B.Tech CSE 7th semester. The seminar was loaded with sound career advice and AI ML discussions. The main focus of the seminar was ML with Python. The seminar consisted of live demonstrations of AI software applications such as voice assistants and prediction software and students were informed on how quickly it could be developed using Python using APIs and ML Technologies.

Resource Person: Experts from iTronix Solutions

Glimpses of the Seminar

Seminar on Introduction of Python

The Department organized a Seminar on Introduction of PYTHON by O7 Services, Jalandhar on 29-August-2019 for the students of B. Tech CSE 3rd semester. The motive of this seminar was to make students aware about the latest technology trends. The main topics covered in the seminar were:

- Introduction of PYTHON
- How to install and learn PYHTON.
- How PYTHON is different from other languages.

Resource Person: Experts from O7 Services Jalandhar

Glimpses of the Seminar

Technical Test on RDBMS, CN and OS

A Technical Test on the subjects: Relational Database Management Systems, Operating Systems, Computer Networks. was organized for students of B.Tech CSE-7th semester on 26 August, 2019. In total, 47 students appeared for the test. The test consisted of 30 multiple choice questions which were to be answered in 30 minutes. The motive of this Technical Test was to give students an idea of the questions to be asked in Placement Tests. Students were able to identify their personal areas of weaknesses so as they could further enhance their knowledge and skills on those fields to improve their performance.

The motive of conducting GD amongst the students is to observe their personality, skills and ability to discuss on the given subject. The students were given 15 minutes to think over the topic before opening the discussion. The highlighted points of the discussion were: -

- Discuss was opened by raising the point that we are outsourcing the activities that requires intelligence to technology.
- To be human is to adapt, technology is not an obstacle to humanity. Humans evolve behaviorally, physically, morally. Thankfully technology evolves too!
- People now usually live in their virtual homes – smart phones.
- Face-to-Face communication is also being affected due to our more and more dependence on technology.
- Remembering things and analyzing are the essential qualities of humans, by relying more on technology; our decision-making skills are also being affecting.
- Morality and principles that decide what is right and what is wrong are also being strongly affected by technology.
- Cyber-bulling: is increasing day-by-day which is really an inhuman act.
- Instead of thinking on their own, people rely on technology to think for them.

Organizer: Faculty of CSE Department

Students Participating in the Group Discussion

The Group Discussion ended with mixed points: in favor as well as against the motion. Finally, it was concluded by the following points:

1. Technology is a double-edged sword.
2. If we allow it may turn us to slave. It's up to us not to let it make us feel less human.
3. Technology is just a tool and we need to trust our abilities more than machines.

Seminar on “Importance & Utilization of Electrical Engineering in Industrial Setup”

Resource Person: Er. Paramjeet Singh

Importance & Utilization of Electrical Engineering in Industrial Setup

Mr. Paramjit Singh commenced the talk by throwing light on role and scope of Electrical Engineering in an industry setup. It spurred the doors by uncovering different opportunities for an Electrical Engineers in an industry. He threw light on the practical implications of Electrical Engineering and modern technology in the Electrical Engineering domain. The lecture updated the knowledge of the audience in the manufacturing process of axle for automobile industry along with role of Electrical, Electronics, Instrumentation and Mechanical Engineering. Mr Singh continued his talk by showing videos of various manufacturing processes along with application of Electrical Engineering. He stressed the significance of latest Electrical equipments such as high speed motors, robotic arm and latest software Distribution SCADA in the industry.

EXPERT LECTURE ON “MATHEMATICS IN REAL WORLD” ON THE EVE OF NATIONAL MATHEMATICS DAY ON 22nd DECEMBER, 2020

An Expert Lecture on topic “MATHEMATICS IN REAL WORLD” was organized in DAVIET. Ms. Harpreet Kaur, Dean Academics and HOD, Department of Applied Sciences LLRIET, Moga was the resource person. Our resource person in her talk discussed about real world problems solved and analyzed with the help of mathematics, how mathematics helps actually in real world issues and their solutions and updating them time to time according to situations. She used very easy approach and examples to make the audience understand about the role of mathematics and its contribution in real world issues like how one can use simple mathematical models to develop population growth graphics and further analysis by adding the competition factors etc.

EXPERT LECTURE ON “PROSPECTIVE APPLICATIONS OF STEREOCHEMISTRY” ON 24th DECEMBER, 2020

An Expert Lecture on topic “PROSPECTIVE APPLICATIONS OF STEREOCHEMISTRY” was organized in DAVIET. Dr. Rupesh Kumar, Assistant Professor, Department of Chemical Sciences, IKG PTU, Kapurthala was the resource person. The resource person in his talk discussed about the representation of three-dimensional structures of different organic molecules, structural isomerism and stereoisomerism. He also explained about chirality, optical activity, enantiomers, diastereomers, conformational isomerism of alkanes and how to assign the absolute configurations of chiral centers of optically active molecules using very effective presentation and models.

An extension lecture on 'Tax planning and procedure of filing income tax returns' organised by the DAV Institute of Engineering and Technology in progress. TRIBUNE PHOTO

LECTURE ON TAX PLANNING

Jalandhar: The Department of Business Management of DAV Institute of Engineering and Technology organised an extension lecture on the topic "Tax planning and procedure of filing income tax returns" for the students of MBA, BBA and BCom (Hons) under the leadership of Principal Dr Manoj Kumar and guidance of HOD Dr Anil Soni. The main objective of the lecture was to inculcate knowledge of practical aspects of the subject among the students to make them fit for the industry and reducing the gap between the industry and academia. CA Puneet Oberoi and CA Priyanka Verma from Puneet Oberoi and Co were the e-resource persons of the extension lecture. They are well-known in their fields and are experts in direct and indirect taxes. CA Puneet discussed various methods of tax planning in simplified ways and differentiated between tax planning, tax evasion and tax avoidance with the help of interesting examples and video clippings. He also elaborated with facts and figures that only a few percentage of the population of India, which is liable to pay taxes, was actually paying the tax. CA Priyanka enlightened the students with various types of returns and procedure of e-filing income tax return in an elaborate and easy form. Formal vote of thanks was been delivered by Dr Suman Tandon, convener of the event. Principal Dr Kumar appreciated the efforts of the department for organising the event. The lecture turned out to be informative and interactive for the students.

A LECTURE ON WINNER'S MINDSET BY INTERNATIONAL MOTIVATIONAL SPEAKER SIMERJEET SINGH ON 11TH OCTOBER, 2021

A talk was given by **Mr. Simerjeet Singh**, a motivational speaker of repute. He stated that we should commit for taking a positive view of life, every single day. He also shared that the students must give their best and enter into a partnership with the institution to get the best results. He highlighted the importance of knowing one's purpose because life is like a rudderless ship without a purpose. He also shared the need for having passion and commitment towards one's goal. He highlighted the fact that one can succeed in life by treading on the uncharted territory. He asked the students to practice Kaizen, achieve small wins to boost self-esteem and make efforts without the expectation of applause.
